- Bonus points may be awarded for creativity, speed, or unique approaches.

- Scoring will be transparent and consistent throughout the event.
- **Judges' decisions are final.**

❖ Rounds:

- **Round 1: Information Architects**

Challenge: Navigate your way through 2 chosen websites.

Tasks: Complete 4-5 tasks that test your information-gathering skills. Find specific facts, articles, images, or videos based on cryptic clues.

Focus: Website structure, navigation, and content understanding.

- **Round 2: Code Detectives**

Challenge: Decipher hidden messages and clues embedded within 2-3 websites.

Tasks: Utilize your browser's inspect element feature to uncover hidden messages, manipulate code snippets, or solve puzzles embedded within the website's source code.

Focus: Understanding basic website coding and using browser developer tools.

- **Round 3: Global Explorers (Optional)**

Challenge: Explore 2 diverse international websites.

Tasks: Complete 4-5 tasks requiring cultural awareness and translation skills. Find specific information, answer questions about the website's purpose, or decipher clues written in another language.

Focus: Adaptability, resourcefulness, and cultural understanding.

- **Bonus Round: Mystery Mashup (Optional)**

Challenge: Combine clues from all previous rounds to solve a final puzzle or answer a mystery question.

Tasks: Integrate information gathered throughout the hunt, drawing connections and thinking outside the box to reach the ultimate solution.

Focus: Critical thinking, problem-solving, and ability to synthesize information.
