

❖ Event: Lightning Relay-ers

Get ready for an adrenaline-pumping coding experience with our Code Relay Challenge! Gather your team of coding enthusiasts and showcase your programming prowess in this thrilling relay event. This competition is designed to test your problem-solving skills, teamwork, and speed in a fast-paced coding environment. Participants will strategically contribute their individual coding expertise to collectively achieve a predetermined output. This formal event emphasizes teamwork, precision, and time management as teams navigate the coding relay challenge.

❖ Participants: Group of 5 members

❖ Venue: D - Block

❖ Fees: ₹100

❖ Main Co-ordinator: Prashant

❖ Faculty: Prof. Ankita Shah

❖ Rules & Regulations:

- All participants must adhere to respectful and professional conduct throughout the event.
- Organizers reserve the right to disqualify any participant for violating the rules or exhibiting disruptive behaviour.
- Time limits: Strict time limits will be enforced for given tasks.
- Students are allowed to bring their laptop with them.
- Participants caught cheating will be disqualified from the competition.
- Judges' decisions are final.

❖ Rounds:

- **ROUND 1:**
Each team member solves a quick coding challenge individually. Teams move on to the next round based on the combined accuracy and speed of their solutions.
- **ROUND 2:**
The relay begins! Teams are presented with a series of interconnected coding challenges. Team members take turns to solve a challenge and pass the solution to the next

member in a relay format. The faster you solve, the better your chances of victory.
